ELABORATE SPORTS COATS--DAINTY KNITTED SILK SWEATERS

this spring, but they are poorly adapted to sporting uses, unless one puts flirtation at the head list of sports.

Not that the practical woollen sweater for hard wear has vanished from the earth. It is still here and in very attractive guise, but it has! been so eclipsed by its hybrids, to put | the situation in gardening phrase. that it receives scant consideration.

The silk sweater is the thing, and there are silk sweaters, and silk sweaters. The knitted silk sweater. with accompanying scarf and cap, was the first of its tribe to appear above fashion's horizon, and it is still modish, popular and expensive; but the sports coats of glove silk, of brush silk, of imperial crepe and of soft entin are newer.

All last summer the gayest of silken sweaters flaunted in the various European resorts and the winter season at Palm Beach and other resorts have introduced many new models in these garments. Now the summer girl is turning her attention to them and. though they range in price from \$15 to \$75, they promise to be worn almost as generally at the summer resorts and country clubs as were the inexpensive woollen sweaters a few

The difference in the texture of the new sweater materials makes possible a variety in line and detail that would be impossible in the clinging hand knitted garment, and the designers have turned out some audacious and delightful models. The sweater coats of glove silk, soft, lustrous, so thin as to be almost transparent, are fashioned in many shapes.

One model, offered in a line of very gay colors, fits rather clingingly above a snug belt of the silk but flares mildly below and has two big pockets on the full coat skirts. Collar and cuffs are of white silk. Another model hangs full from the shoulders and is loosely girdled by a scarf of the There too one finds white cuffs and cellar.

Both of these coats are of ordinary coat length, falling well over the hips; but there are other models much longer in the same glove silk and also in the rough crepes and satins. Some of these are, foolishly enough, trimmed in fur, the Parisian fad for summer furs having suddenly, for no particular reason, appealed to the American woman. Whether the idea will persist in the face of our tropical summers is to be doubted, but things as foolish have happened in Foolish Land, and at least lingerie and fur are being associated now and the silk sweater coats for wear over summer frecks are in some cases being given collars or bands of fur.

A long silk coat of exquisite bright rose color has a high straight collar of white fur and a band of the same fur trims the bottom of the coat. Another sweater coat in yellow silk has a deep sailor collar trimmed with a band of brown fur.

More sensible, but quite, as luxur-icus, is a very long sweater coat of slik webbing in bright rose or blue. and of their smooth, web weave; but drawn in at the waist on an elastic the bright colors they are more atband. A sash of the silk is worn over tractive and they have more warmth

Then there is a very charming silk head, buttons part way down the front, has a square collar falling almost to the waist line in the back and is girdled loosely by a scarf of

"Brush" silk sweater coats are very fuzzy of surface and light as a feather and are as a rule rather more conand woolly silk models.

Knitted silk sweaters come in gay plaids and stripes with plain borders and in every imaginable combination of colors. There are of course knitted silk models in all the gay plain colors too with or without contrasting collars

sweaterdom and recalls the wool jer- coat has the straight pocketed front, and linen hats stiffened by stitching,

Beautiful Things Never Meant for Any Form of Athletics on Land or Sea, and pour into jelly glasses. Keep in a So that was all right. Then my cold place. If the glasses are sealed the jelly may be kept some time. In less Elization Be Included as But for Real Unless Flirtation Be Included --- But for Real Service There Remains the Honest Woollen Garment

but its fulness in the back is shaped and Panamas are shown in all the gance, and I learned it from hearing to the figure in little plaits and the modish outing shapes. Some of these shapes, by the way, spending what I thought was extravabelt does not cross the back. Striped flannels are used for sport have oddly high mannish crowns, but gantly. I exploded one night at a coats, but the smartest are in stripes a majority are rather low of crown wider than those of the old time or soft crowned an I dented. Bands of corded ribbon or kid are fiked for trimming.

THE NEW SKIRT WALK.

with the wide skirts was first brought | paid. out by French women on the Riviera.

tight skirts and semi-Japanese steps unlike the kind I bought, it was infor so long that it will be difficult for creasing in value all the time.
